

Features & Benefits

- Enhanced Category 5 performance
- Fully shielded to increase signal isolation
- Individually performance tested
- Available from stock in lengths from 0.5 to 5 metres
- Wide variety of colours available

Specification

Plug	High performance modular plug
Cable	Enhanced Category 5 stranded cable
Wiring Specification	Straight through
Conforms to	EIA/TIA-568-C Enhanced Category 5

(Orange, white, black and purple leads are also available)

Connectix Enhanced Category 5 FTP Patch Leads are designed to exceed the performance requirements of the Enhanced Category 5 Specification.

Connectix Patch Leads are made from Enhanced Category 5 stranded cable and are terminated using high performance modular plugs. Each lead is individually factory tested to the standard to ensure true standard compatibility.

The fully shielded patch leads increase signal isolation and prevent contaminant noise from entering the cabling system.

We stock a variety of booted and unbooted leads in lengths from 0.5 to 5 metres and each is available in various colours.
